

## Medication list for Social Health Facilities/ Clinics of Solidarity in Greece

*We are unable to provide our patients with all necessary medicine or pharmaceutical supplies. Most urgently, we need drugs for patients with cancer or cancer-related illnesses; such medicine is expensive and difficult to obtain for a clinic like ours.*

*The following list is up to date as of 18/11/12 and will be revised regularly. If you are unsure about how you can help or if you have any questions, please contact us at [mkiellinikou@gmail.com](mailto:mkiellinikou@gmail.com)*
